

BUILDING COMPLIANCE SOLUTIONS (BCS)

Will you be ready in an emergency?

Speed Occupancy. Avoid penalties.

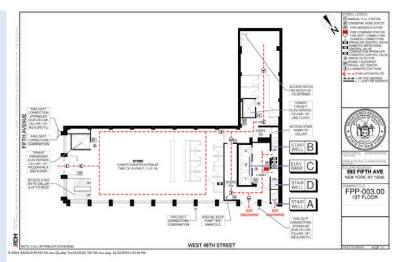

Avoid penalties and occupancy delays with our fullservice plan facilitation and industry-standard output.

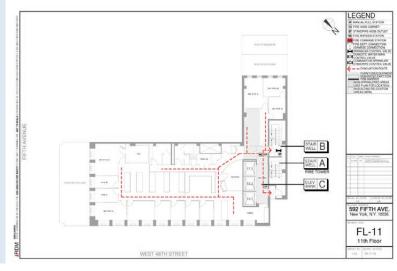

An Emergency Action Plan (EAP) is required for all New York City commercial buildings above 6 stories (75 feet). EAP support includes:

- A yearly building walkthrough
- Creation of floor plans that denote standpipes, fire barriers, and evacuation routes
- Unlimited in-house floor plan updates

A Fire Protection Plan (FPP) is required for a building to obtain its Certificate of Ocupancy (C of O) for a new development or change of use. RDM provides:

- Written narrative
- Floor plans show all exits, doors, corridors and partitions serving as fire barriers
- Filing with the FDNY
