Prism Visitor Access

Streamline Visitor Management and Keep Your Building Secure

To keep your building safe, you need full visibility into who is coming and going at all times. However, this can be difficult to achieve with manual visitor check-in processes that lead to long lines in your lobby and frustrated tenants whose schedules have been disrupted. Prism Visitor Access automates the entire visitor management process, giving guests a smooth experience from building entry to exit. Your security personnel can quickly register visitors, capture all important information and get them to their designated suites sooner.

Benefits of Prism Visitor Access:

- ✓ **Pre-clear visitors:** Enable tenants to pre-register guests in advance with security, providing a secure, timely experience.

- ✓ **Decreased wait times:** By giving visitors multiple ways to check in, your security team can streamline the entry process, getting guests through the doors and to their appointments faster.

- ✓ **Enhanced integration:** Prism Visitor Access connects directly to building access control (BAC) systems, making it easy to share critical information between the two systems for enhanced security.
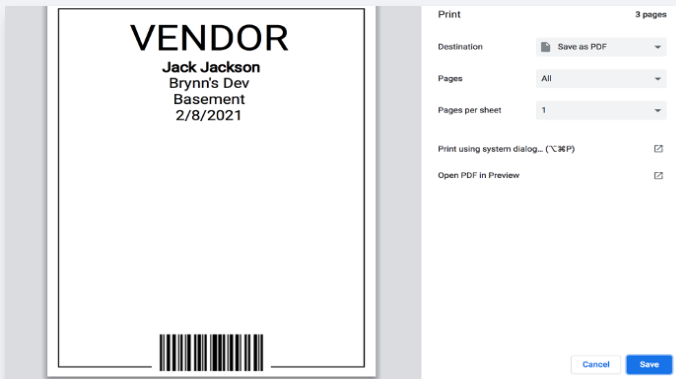

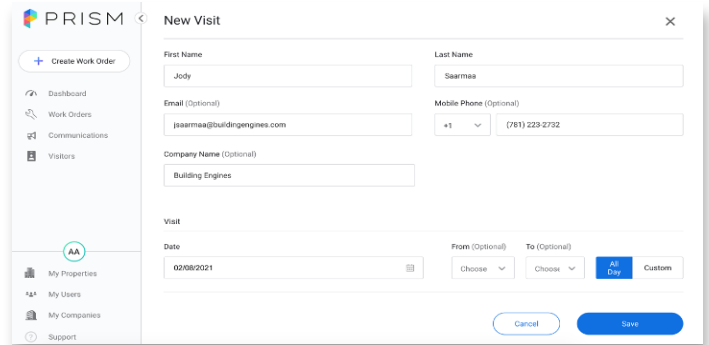

How is Prism Visitor Access Different?

Guest communications: Prism Visitor Access includes a fast communication channel to all current property visitors for any important information. Communications can be filtered to include only visitors checked in on a certain date.

Related visits: To avoid a lengthy check-in for guests arriving in groups, Prism Visitor Access lets you select related visits to quickly checkin parties of 2+.

Identify trends: Property management can quickly spot visitor trends based on time of day and understand which tenants are having visitors when.

Familiar system: Tenants can leverage the same building operations software used to submit Work Orders.

Key Features and Capabilities

Register Visitors

Tenants can easily pre-register guests, so that they don't need to run back and forth to your security desk to guide guests through check in.
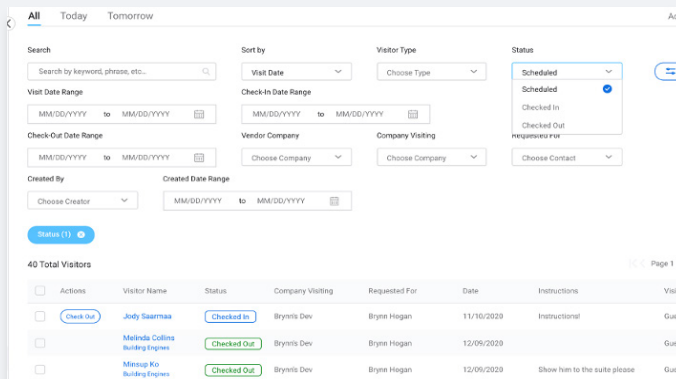

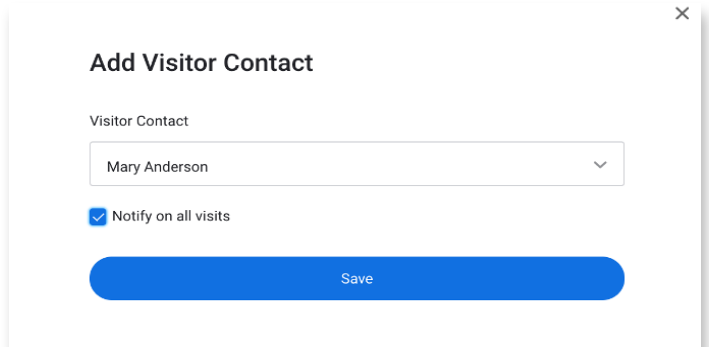

Generate Badges For Turnstile Entry

Generate picture badges to be printed and provided to visitors for easy identification as they navigate the property. Teams can choose from QR or barcode scan for entry, and from standard badge size and layout options.

Tenant Visitor Contact List

Security has immediate access to a Tenant Visitor Contact list to quickly find the right tenant contact and their information to grant visitor clearance in the case of an unregistered visitor.

Complete Visitor Tracking

Use check-in, badge generation and check-out status to easily determine guests in the building at each time of day.
