

Prism Projects

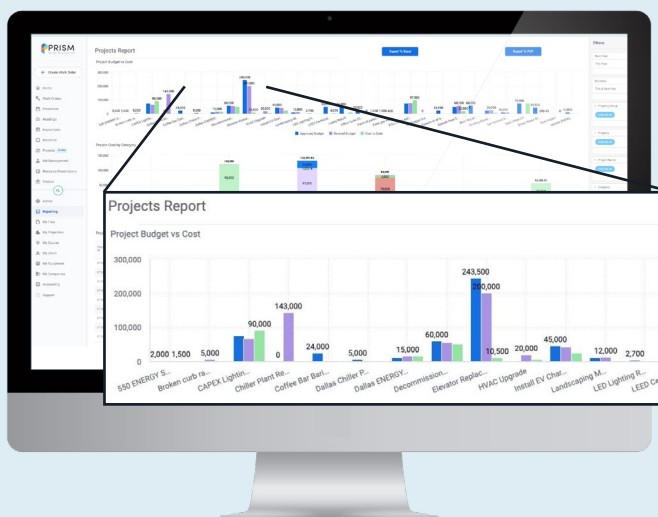

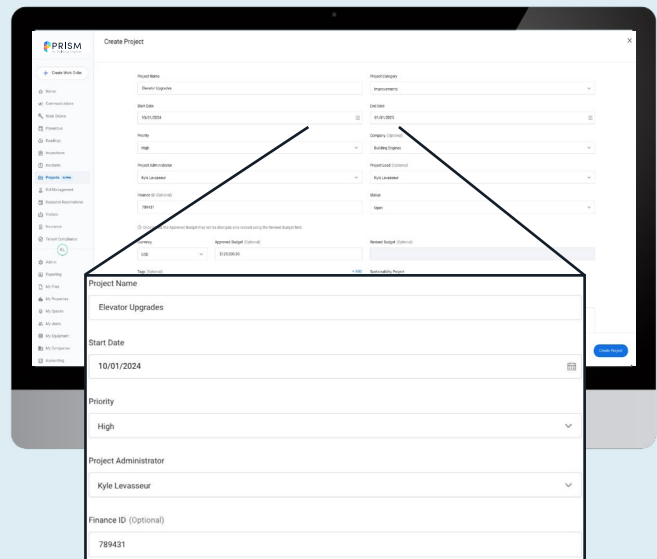

Simplified project management for CRE operations

Say goodbye to spreadsheets and one-off apps. Prism Projects, powered by Building Engines, makes it easy for property teams to deliver CapEx and sustainability projects on-time and on-budget – all in the same system they use for day-to-day operations.

Built for Commercial Property Teams

From upgrading elevators to installing EV chargers, Prism Projects is the only solution purpose-built for commercial buildings.

- Easily turn work orders, vendor bids, and other tasks into CapEx and sustainability initiatives
- Manage projects at scale: whether it's a lobby renovation or a portfolio-wide sustainability program, your team can do it all in one platform
- Seamlessly integrate with in-house systems to keep your data accurate and up to date

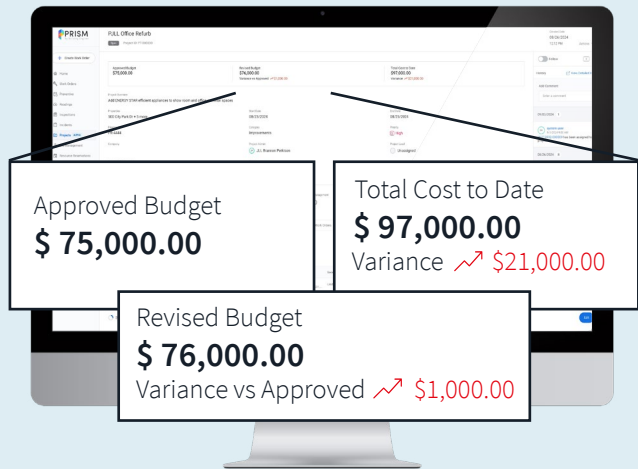

Actionable information for better results

Configurable dashboards help you spot at-risk projects faster, and new project completion and budget reports provide the insights you need to keep projects on-track.

Powerful solutions to deliver projects on-budget

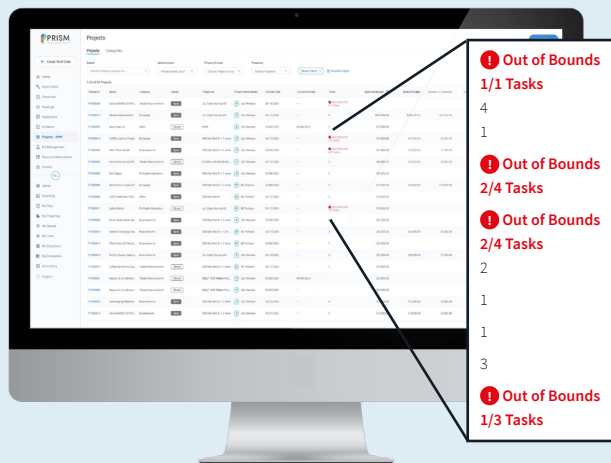

Track your building operations projects down to the last cent with budgeting tools that integrate with your accounting system.

- Sync project finance codes with your accounting system for easy, accurate reporting and payments
- Add approved budgets to your projects and make updates along the way – all changes are tracked for easy auditing
- Quickly monitor project costs and variance against an approved budget, or access comprehensive cost breakdowns

Keep your teams organized and your projects on-track

Ensure projects are always moving forward with simple-to-use scheduling, file management, and project tagging features.

- When timelines change, dynamic project schedules keep everything up-to-date
- Quickly identify tasks that fall outside a project's start or end date
- Empower teams with centralized access to important operations documents, including project SLAs, contracts, and more
- Use project tags for detailed reporting and more efficient management
