

# Prism Insurance

Ensure compliance and streamline COI tracking

Simplify Certificate of Insurance (COI) tracking and ensure tenant and vendor compliance with Prism by Building Engines. Our Prism Insurance module streamlines COI management to save you time and resources while mitigating risks related to canceled or expired policies.

**Gain a full view of compliance at your properties**

- Access a central repository to manage certificates, requirements, and more
- Gain instant visibility into the COI status of vendors, suppliers, and tenants
- Customize compliance standards for tenants and vendors to ensure critical requirements are met
- Mitigate risk and avoid issues by catching canceled policies sooner

**Advanced COI management with Jones**

Prism integrates seamlessly with Jones' best-in-class COI management software, giving you even more power and control over your compliance processes.
