

RealAccess

Maximize RSF with your digital hub for CRE space management

Increase leasing efficiency and visualize your spaces in a whole new way with RealAccess, from Building Engines.

Accurate measurements down to the last square foot – ALWAYS

- Gain confidence in your space management data with industry-leading field measurement services
- Always ensure metrics are aligned with current BOMA and REBNY standards
- Recalculate RSF as needed to maximize revenue with tenants come renewal time

A single source of truth for every property team member

- Ensure easy access to the latest data – no matter who's working at your properties
- Centralize the most current floor plans, leasing docs and other space data
- Auto-sync tenant leasing data straight from your accounting system

View leasing data across your portfolio – and visualize your full growth potential

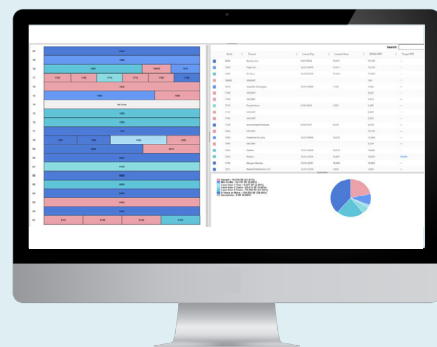

- Glimpse leasing data for all your spaces and properties from a single screen
- See how leases are trending, if you're meeting occupied SF targets, and when current leases are expiring
- View SF targets for all your spaces, total # of vacant/occupied units, tenant breakdowns by floor, and much more

“

RealAccess helps keep us on track to realize greater RSF.

Charlie Moriarty
The Feil Organization

Accurate RSF data. Increased revenue.

With Building Engines' RealAccess space management app, The Feil organization created more transparency into their floor plan data, **uncovering an additional \$11.7M in revenue.**
