

Prism Tenant Compliance

Simplify triple-net lease management and boost compliance

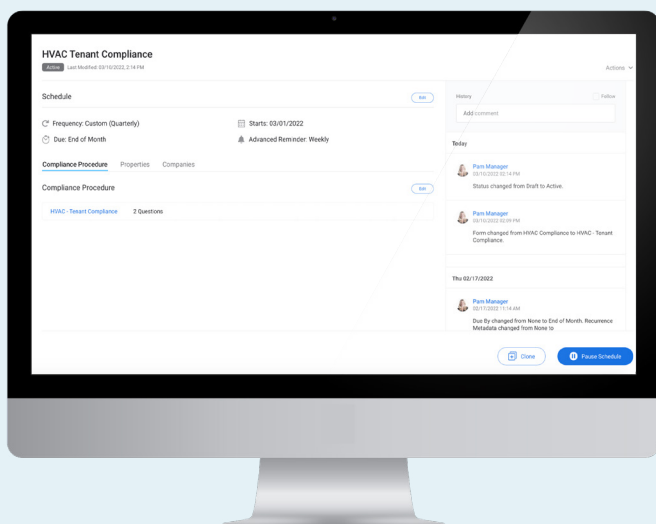

Prism Tenant Compliance technology automates workflows for property teams and ensures your tenants comply with their lease agreements. Learn how you can increase compliance rates by up to 120%.

Benefits of tenant compliance:

Easier HVAC management

Prism's tenant compliance technology simplifies all aspects of HVAC (and other equipment) management at your triple-net properties.

Automate HVAC and other maintenance workflows, including scheduling, notifications, and proof of completion.

Create consistent maintenance schedules across all equipment.

Access complete service histories for HVAC and other triple-net lease managed inventory.

Smart retail solutions

Improve retail building operations and performance by capturing store sales records.

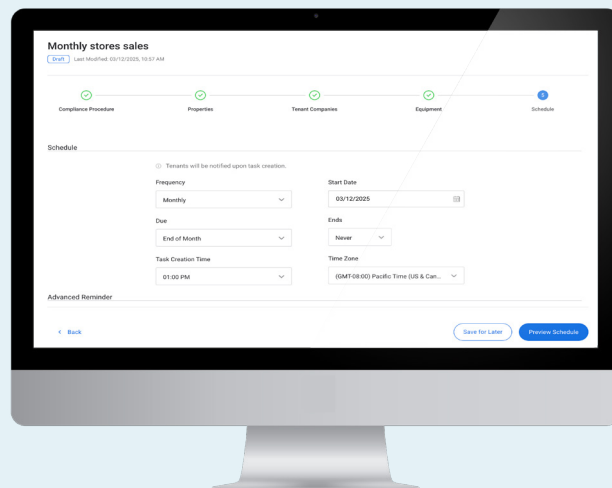

Track retail performance through automated sales data submissions.

Analyze performance data and the strength of each retail location at a property.

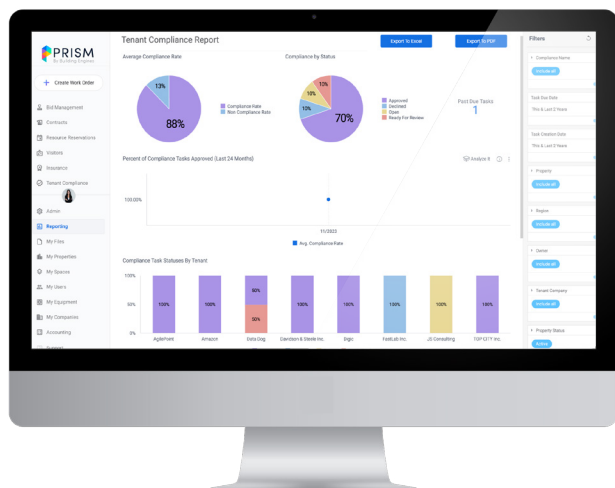

Make informed rent negotiations based on store sales records.

Powerful tenant compliance insights

Gain full visibility into compliance rates across your portfolio with enhanced reporting.

Provide a consistent platform for tenants to submit proof of service.

Generate detailed documentation and compliance reports to ensure greater transparency across your properties.

Manage by exception to easily identify maintenance delays and prioritize overdue task follow-up.
